

Bernal Station Fact Sheet

Station Description

- Existing Facilities: There are no existing station facilities in the location of the proposed Bernal station site.
- Current City Plans: The *Draft Bernal Property Phase II Specific Plan* (January 2006) outlines the overall planning vision for the Phase II Area of the 318 acre Bernal Property. The overall vision for the area is an open space park like setting which will integrate a variety of public and quasi public uses and facilities.

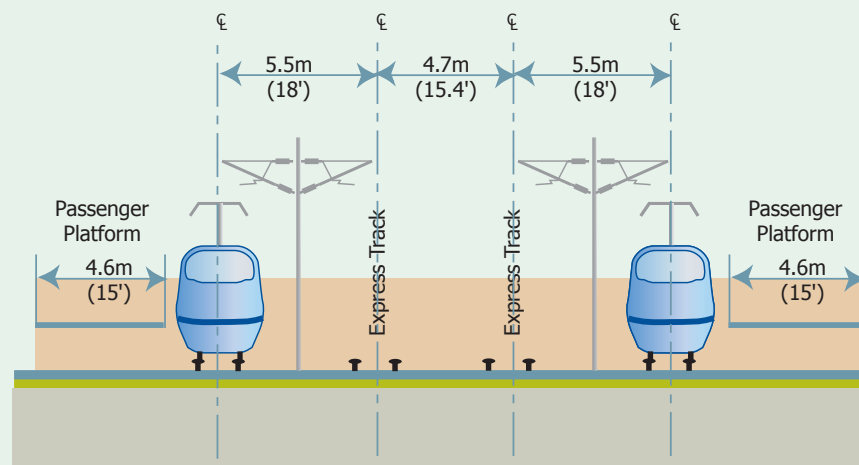

Proposed High Speed Rail Station Use

- Proposed Station Site: The site of the proposed station is located along the UP railroad within the City of Pleasanton. Immediately west of the station site is the Alameda County Fairgrounds and to the north and east are areas of residential development. To the south of station across Bernal Avenue is the Pleasanton Middle School. The undeveloped area west of the rail line and south of Bernal Avenue is the Bernal Property which is currently in the planning stages for future development.
- Station Layout: This at-grade station would consist of four tracks served by two outside platforms. The outer two tracks next to the platforms would be for local service while the two inner tracks would be for express service which would bypass the station.
- Parking: 1700 spaces would be provided in a 6-level parking deck located on the east side of the tracks.
- Access: Access to the station would be from Bernal Avenue and Bernal Court.
- Intermodal Connections: Buses would access the station along the west side of tracks from Bernal Avenue.
